

CONFIDENTIAL

Self

1. Stainless Steel Burial Box after six months burial test.
2. Contents of Burial Box in the condition they came out of container. Wrapping is brown kraft type paper.
3. Items after paper was removed.
4. Wooden cap box and two non-electric Engineer Special blasting caps.
5. Inside of SS Burial container. The rubber gasket was in very good shape.
6. Japanese five gallon can. Seal was only tape. Can was rusted after six months but still usable.
7. Contents of can. Bayonet was in Stateside (Gummy) rubber.
8. Weapon was in cloth and HR-45. The weapon showed no signs of rust and had thin coating of oil on it.
9. Film, 9mm, 30 cal ammo, and matches were all in excellent condition. Film was tested by Photo Section and found to be as good as the in-date film they are now using. Packaging was foil with HR-49 plastic coating.

9mm and 30 cal ammo were both in excellent condition. There was no sign of corrosion around primers. Packaging on both was foil and HR-45.

Matches were dry and burned easily. Packaging was foil and HR-45.
10. Trip Flare was in good shape. It was left in original metal can which had been opened and resealed with tape. Packaging was foil and HR-45.
11. Bayonet was in excellent shape. There was no sign of rust on the blade or mould on the leather handle. Packaging was foil and rubber. Rubber was still sticky inside and had quite a bit of elasticity left.
